DESCRIPTION

Identify a recipe of one of your favorite dishes or a dish you would like to make. The recipe should contain at least a half-dozen ingredients and a half-dozen steps. Using what you've learned of HTML thus far, create a version of the recipe that includes the following HTML elements:

» at least one ordered list

» at least one unordered list

» at least four links to other websites

» at least three links to pages that might exist on the same website, if we were creating a website and it had a dozen recipes / pages

» at least one link to an email address

» at least one link that links to a specific part of the same page (see page 87)

OBJECTIVE

The purpose of this assignment is to get acquainted with HTML markup as a mechanism to define the structure of a document. We are not yet concerned with the *appearance* of HTML documents.

DEADLINE

This assignment is due at the beginning of the next class. Please upload your HTML file to Slack, naming your file "01_<surname>.html." For example, my file would be named "01_baizman.html."

WEIGHT

This assignment will be marked as complete or incomplete.

NB: this is the only time we will upload an assignment to Slack.
